THE BISCHOF TAILORMADE

Simple Serviceable Beautifully Tailored

THE keynote of these suits is service. They are for women who want to dress well on a few things.

Special designers devote their entire time to these suits—they demand exceptional skill as they depend wholly on line, material and tailoring for their effect.

But it is this simplicity that makes them so practical.

We have found more women are interested in these styles than in anything else. There are so many occasions when a good looking tailored suit is exactly the thing to wear.

But when you want a tailored suit, you want it right.

These Bischof models are made of the new materials that will be extremely popular this fall; in all the late fashionable colorings and are conspicuously correct in all the little details that count for so much with a fastidious woman. The style is not pressed in—it is in the cut.

Exquisitely tailored, they invariably make a woman look well.

It is easy to find what you want.
